Contemporary Design Style And The Essentials To Master It ...

In the second stage or mode, designers, possibly joined by some of the project stakeholders, investigate further by observing real users, employees, customers, and anyone who will either be using the product at the end or that might provide inspiration in the design process. Various methods of observation are used, but generally the design team will passively observe users/customers/etc passively (i.e. without physical involvement or interaction) in a natural environment.

On the other hand, a modern design concept follows a strict format of minimalism, balance, and clean lines. Modern spaces are not usually stark or cold. Despite the fact that modern design focuses on minimalism, most modern spaces don't require cold or stark hues. Instead, they are filled with plenty of natural and warm neutrals.
